Natural Granite Setts, Silver Grey

Natural Granite and matching Setts

Natural Granite paving is a hard wearing, glamorous stone with a sparkle which glints in the sun. Its machine cut edges and even, textured surface lends itself to stylish contemporary applications. It comes in three sizes and a cool Silver Grey shade.

The Natural Granite Setts are split, giving a rustic appearance which, when used as a border, complements and softens the larger scale paving. The setts are suitable for a driveway or hard standing area and their random, irregular appearance add distinction when laid in a traditional setting.
